

## COLLEGE CREDIT PLUS

### District Obligations

The District is required to notify all 6th through 11th grade students and their parents about the College Credit Plus (CCP) program through multiple, easily accessible resources by **February** ~~March~~ 1 of each school year. The notice includes all information required by State law. The District promotes the CCP program on the District website, including details of current agreements with partnering colleges.

Students and/or parent(s) are required to submit written notice of intent to participate to the principal by April 1 of the year in which the student wishes to enroll and may submit written notice as early as February 15. Failure to inform the principal **of intent to participate** by the April 1 deadline ~~of intent to participate~~ shall result in the student having to secure written permission from the principal in order to participate in the program. **If the principal denies a student's request for written permission, the student may appeal to the Superintendent. The Superintendent's decision is final.**

The District holds an annual informational session between October 1 and February 15 to which partnering colleges located within 30 miles of the school (or the closest college if none are located within 30 miles) are invited. The informational session includes information on benefits and consequences of participation in CCP, and outlines any changes or additions to program requirements.

The District is required to provide counseling services to students prior to their participation in the program. Counseling services include but are not limited to:

1. program eligibility;
2. any necessary financial arrangements for tuition, textbooks and fees;
3. process of granting academic credits;
4. criteria for any transportation aid;
5. available support services;
6. scheduling;
7. the effect of the grade attained in the course being included in the student's grade-point average, if applicable;
8. consequences of failing or not completing a course under the program, including the effect on the student's ability to complete District graduation requirements;

9. benefits to the student of successfully completing a course under the program, including the ability to reduce the overall cost of, and the amount of time required for, a college education;
10. academic and social responsibilities of students and parents relative to this program;
11. information about and encouraging the use of college counseling services and
12. the standard program information packet developed by the Ohio Board of Regents.

The District develops both a 15-credit hour and a 30-credit hour model course pathway for courses offered under CCP in consultation with a partnering college. Each pathway must include courses, which once completed, apply to at least one degree or professional certification offered at the college. The pathways may be organized by desired major or career path, or may include various core courses required for a degree or professional certification by the college. The pathways are published among the school's official list of course offerings for participant selection. No participant is required to enroll only in courses included in a model pathway.

The District implements a policy for awarding grades and calculating class standing for CCP courses that is equivalent to the school's policy for other advanced standing programs or District-designated honors courses. Any grade weighting or class standing enhancements applicable to advanced standing programs or District-designated honors courses are similarly applied to CCP courses.

### Student Enrollment

To participate in CCP, a student must apply to, and be accepted by, a participating college in accordance with the college's established procedures for admission. The student also must meet the college's **and relevant academic program's** established standards for admission, **enrollment** and course placement, including any course specific capacity limits. The student and his/her parent also must sign a form acknowledging receipt of the required counseling and understanding of their responsibilities under the program.

The student may opt to receive college credit only or both college and high school credit. The student must designate his/her choice at the time of enrollment.

If a student completes a college course, the Board shall award him/her appropriate credit toward high school graduation if, at the time of enrollment, he/she elects to receive credit for courses toward fulfilling the graduation requirements.

High school credit awarded for courses successfully completed counts toward graduation requirements and subject area requirements.

1. The Board awards comparable credit for the course/courses completed at the college.

2. If no comparable course is offered, the Board grants an appropriate number of elective credits.
3. Any disputes between the student and the Board regarding high school credits granted for a course may be appealed by the student to the **Ohio Department of Education (ODE)**. ~~The State Board's~~ ODE's decision on these matters is final.
4. The student's records must show evidence of successful completion of each course and the high school credits awarded. The record must indicate that the credits were earned as a participant in CCP, and include the name of the college at which the credits were earned. The grades and credits for courses completed during summer term must be included on the student's high school transcript in the fall for that school year.
5. Credits earned through CCP are included in the student's grade-point average. College credits count as the equivalent District grade. If the District has a weighted grading system CCP courses are treated in the same way as other advanced standing program or honors course.

#### High School/College Enrollment

1. A student who enrolls in CCP for the first time in:
  - A. grades 7, 8 or 9 may receive credit toward high school graduation for up to the equivalent of four academic school years.
  - B. 10th grade may receive credit toward high school graduation for up to the equivalent of three academic school years.
  - C. 11th grade may receive credit toward high school graduation for up to the equivalent of two academic school years.
  - D. 12th grade may receive credit for up to the equivalent of one academic school year.
2. Proportionate reductions are made for any student who enrolls in the program during the course of a school year.
3. For the purpose of this program, an academic year begins with the summer term. The maximum number of credits that may be earned during the academic year is the total of the high school courses and college courses. The total may not exceed 30 college credit hours per academic year.
4. College courses for which three semester hours are earned are awarded one credit toward high school graduation credit. Fractional credits are awarded proportionally.

### **Student Eligibility**

**Students wishing to participate in CCP must meet all statutory eligibility requirements. To be eligible, students must be considered remediation-free on one of the Ohio Revised Code 3345.061(F) assessments. A student scoring within one standard error of measurement below the remediation-free threshold on one of the assessments is considered to have met this eligibility requirement if he/she either has a cumulative high school grade point average of at least 3.0 or receives a recommendation from a school counselor, principal or career-technical program advisor.**

### **Summer Term Eligibility**

A student who is scheduled or anticipated to graduate from high school may not participate in CCP for any term beginning after the student's scheduled or anticipated graduation date or in any course offered at a college during a summer term that begins during the student's last quarter of high school.

### **Financial Responsibilities**

1. If a student elects to enroll for college credit only (Option A), the student is responsible for all costs associated with the course.
2. If a student elects to enroll for the combination high school/college credit (Option B), the District is responsible for all costs associated with the course at a public college/university. Students participating in CCP under Option B at a private college may be charged tuition and/or fees unless they are economically disadvantaged.
3. If a student fails a CCP course, the student or parent(s) may be responsible for all costs associated with the course. The District may not seek reimbursement from a student who fails a course if he/she is economically disadvantaged, unless the student has been expelled.
4. Students enrolled for the combination of high school/college credit are not eligible for financial aid from the college.
5. Upon parental application and determination of need an eligible student, as defined by State law, enrolling for the combination of high school and college credit in the program may receive full or partial reimbursement for the necessary costs of transportation between the secondary school that he/she attends and the college/university in which he/she is enrolled.

Other Considerations

1. A student enrolled in the program follows the District attendance policy, as well as the District code of conduct, for curricular and extracurricular activities. These policies and codes are applicable during the time the student is attending high school and is on school property for any class or activity.
2. If a student is expelled from the District, the Board will deny high school credit for college courses taken during the period of the student's expulsion.

The Superintendent must send written notice of a student's expulsion to the college where the student is taking courses to receive high school credit. The notice must state the date the expulsion is scheduled to expire and whether the Board has denied high school credit for postsecondary education courses taken during the expulsion. If the expulsion period is extended, the Superintendent must notify the college of the extension. The college may withdraw its acceptance of a student who has been expelled. Unless otherwise authorized by State law, the expelled student is ineligible to enroll in a college under CCP for subsequent college terms during the expulsion period.

3. The student enrolled in this program must recognize that the master schedule is not altered or adjusted in order to permit enrollment. Adjustments to individual schedules may be made by the school administration.
4. The District will not deny students the opportunity to participate in extracurricular activities because of their participation in CCP. The District adheres to the Ohio High School Athletic Association for eligibility to participate in athletics. In order to be eligible, the student must have passed five courses that count toward graduation during the prior grading period. The five courses may be a combination of high school and college courses. Students also must meet any additional District eligibility requirements.

(Approval date:)

*NOTE: The notice provided to students and parents outlining the College Credit Plus (CCP) program must include the following information:*

- *Cost, including:*
  - *notice of CCP opportunities that have no cost to students, including the free option to attend public institutions of higher education;*
  - *clear references to the potential cost of participation at a nonpublic institution of higher education and*
  - *the prohibition of charging economically disadvantaged students who choose to attend a nonpublic institution of higher education.*

- *Criteria for student participation, including but not limited to:*
  - *the requirement for a counseling session prior to participation (Ohio Revised Code (RC) 3365.04).*
  - *a notice that states: “Students must submit a written notice of their intent to participate in the upcoming academic year, by April 1, in accordance with Section 3365.03 of the RC, but may submit the written notice of intent to participate as early as February 15. Students desiring to participate in college credit plus in the summer are strongly encouraged to submit letters of intent and begin the admissions process starting in February and prior to the April 1 notice of intent deadline in order to improve chances of meeting summer registration timelines.”*
- *Student participation options:*
  - *a statement secondary schools cannot limit a student’s participation in CCP to only the courses offered in that school and that students may also participate online or at any other participating institution of higher education, or any combination thereof.*
  - *a statement that participating students may be concurrently enrolled in multiple postsecondary institutions and may concurrently take postsecondary courses from more than one institution of higher education.*
  - *list of courses offered at the secondary school through an agreement with an institution of higher education.*
  - *a statement students should review the course catalog of an institution of higher education for a full listing of course offerings of the institution.*
- *Specific information pertaining to the student’s opportunity to participate during the summer term and the responsibility of the student to notify the college and students prior high school prior to a transfer to a new school when participating in a summer term course.*
- *Deadlines pertinent to the student’s participation, including all deadlines associated with summer term participation.*
- *The designated point of contact at the secondary school for CCP who can answer questions from students, parents and the community regarding the program’s operation and who will act as a liaison to the state to monitor future changes or amendments to the program.*
- *Specific information regarding a student’s option to participate in CCP, at the high school-if applicable-, online, or at an institution of higher education, must also be part of all communications developed by the secondary school to promote CCP.*

*Districts are required to report CCP program data by July 15 annually in accordance with requirements to be developed by the Ohio Board of Regents and Ohio Department of Education.*

*While districts are required to apply any weighted grading policy in a similar manner for CCP courses, districts are not required to create a weighted grade policy if they do not already have one. It is important to note, however, that if you are using a weighted grading policy, a higher value may not be placed on honors courses or other advanced standing program than on CCP courses.*

*Senate Bill 3 (2016) added RC 3313.5314 stating that students attending the district or homeschool, nonpublic school, community school and STEM school students otherwise eligible to participate in extracurricular activities in the district cannot be denied the opportunity to participate in extracurricular activities in the district solely because of their participation in CCP. Students still must meet the district eligibility requirements.*

***House Bill 49 (2017) amended RC 3365.03(E) to state that the college to which a student applies will pay for one assessment used to determine that student's eligibility. Any additional assessment used for this purpose will be the financial responsibility of the student.***
