IPDP Goals Bank

Technology Goal

I will develop my knowledge and skills in the effective and safe use of technology and apply new strategies to enhance instruction, assessment, student learning, data-informed decision-making, communication, collaboration, and/or leadership practices for my professional responsibilities.

Safety Goal

I will increase my knowledge of effective measures that help to ensure a healthy, safe, caring school environment that meets the needs of the whole child.

Content Goal

I will engage in professional development that strengthens best practices toward contact area learning, curriculum resources and increases my knowledge of effective strategies to meet the diverse needs of the students I serve. This may include, but is not limited to, intervention strategies, gifted strategies, instructional strategies, collaboration strategies, and/or professional responsibilities.

Mentorship Goal

I will practice and enhance my mentoring and instructional coaching skills to support future educators by providing guidance, resources, and feedback on instructional practices, classroom management, and professional responsibilities.

Data Analysis Goal

I will develop my skills in interpreting and using student performance data to make informed decisions based on students' academic and emotional needs.

Compliance Goal

I will engage in new initiatives and/or develop and maintain current knowledge of professional standards, state, district, and building requirements, policies, regulations, and ethical responsibilities in order to make informed decisions and effectively fulfill my professional responsibilities.
