

EVALUATION OF SCHOOL COUNSELORS

Professional school counselors offer students access to high-quality services that support students' academic, career and social/emotional development. The Board evaluates school counselors in accordance with State law and the standards-based statewide counselor evaluation framework adopted by the State Board of Education (SBOE). The framework is aligned with the Ohio Standards for School Counselors.

The Board directs the Superintendent/designee to implement this policy in accordance with State law. The policy becomes operative at the expiration of any collective bargaining agreement covering school counselors that is in effect on September 29, 2015. The requirements of this policy prevail over any conflicting provisions of collective bargaining agreements entered into on or after September 29, 2015.

Annually, the Board submits to the Ohio Department of Education (ODE) a report regarding implementation of this policy. The name of, or any personally identifiable information about, any counselor reported in compliance with this provision cannot be required.

Effectiveness Rating

School counselors are assigned an effectiveness rating of Accomplished, Skilled, Developing or Ineffective. Each school counselor is evaluated based on multiple factors including performance on all areas identified by the standards for school counselors and the ability to produce positive student outcomes using metrics in order to determine the holistic final summative rating of effectiveness according to ODE requirements. The choice of metrics for student outcomes will be determined locally and will include information from the school or school district's report card when appropriate.

Evaluation Time Line

District administrators evaluate school counselors annually except as otherwise appropriate for high performing school counselors. Annual evaluations include two formal observations of at least 30 minutes each and informal observations. Counselors will be provided with a written report of the evaluation.

(Permissive – add if want to evaluate Accomplished counselors every three years.)

The Board evaluates school counselors receiving effectiveness ratings of Accomplished on the counselors' most recent evaluations carried out under this policy, and whose metric of student outcomes for the most recent school year for which data is available is skilled or higher on the evaluation rubric every three years. In years when an evaluation will not take place, one observation is carried out and at least one conference with the counselor is held.

(Permissive – add if want to evaluate Skilled counselors biennially.)

The Board evaluates school counselors receiving effectiveness ratings of Skilled on the counselors' most recent evaluations carried out under this policy, and whose metric of student outcomes for the most recent school year for which data is available is skilled or higher on the evaluation rubric every two years. In years when an evaluation will not take place, one observation is carried out and at least one conference with the counselor is held.
