

Norton Middle School

Summer Slide Program

Research shows that a significant learning loss takes place during summer break. In order to support our students during the summer months we have created an online Reading and Math program to help prevent the summer learning slide!

Middle Schools students can participate to:

1. **Review** Reading and Math Content from the past school year
2. **Preview** Reading and Math skills for the new school year

When: June 16 - July 25, 2014

Where: Students will complete all lessons online. They can participate anywhere that they have access to the internet.

Cost: \$50 per Norton Middle School Student \$60 per Nonresident Student (checks payable to Norton City Schools)

After you have returned your registration and fee, you will receive an email with log-in information and the prescriptive lessons assigned for your child's specific grade level. A Norton Middle School teacher will monitor your child's progress and contact them via email or phone to provide intervention/feedback as needed.

Application is due June 13. Prior to June 13th, return registrations to Norton Middle School.

After June 13th, please contact Sharon Herchik @ 330-825-0863.

My child needs to ___**review** reading and math content ___**preview** reading and math content

Student Name _____ Gender M or F

Grade Level (for the 2014-2015 school year) _____ I.E.P. ___Yes ___No (If non-resident, please attach a copy of the I.E.P.)
