PROGRAMS FOR STUDENTS WITH DISABILITIES

All students with disabilities living within the District are identified, evaluated and placed in appropriate educational programs. Additionally, all parentally placed private school children with disabilities who reside in a state other than Ohio and attend a private school within the District are located, identified and evaluated. Due process requirements, procedural safeguards and confidential treatment of information are adhered to as required by State and Federal law.

The Superintendent is expected to supervise all special education programs and to assign a member of the staff to coordinate efforts. The person designated is responsible for the identification of students with disabilities, the evaluation of disabilities and evaluation procedures, the design of Individualized Education Programs (IEP), plans and placement. All procedures are in accordance with State and Federal law.

The IEP determined for each identified student is developed in accordance with the student's individual needs. The plan provides for reevaluation of the student's needs, progress and effectiveness of the program being offered.

Although the District requires all students with disabilities to be tested, each student with a disability is considered individually relative to his/her participation in the District's educational and testing programs. Alternative assessments may be required. Students must make yearly gains toward closing the achievement gap as defined by the State Board of Education performance targets.

The Board, by resolution, directs the administration to comply with and follow the Ohio Department of Education, Office of Exceptional Children's model special education policies and procedures.

NOTE: Ohio's Operating Standards for Ohio Educational Agencies Serving Children with Disabilities ("Operating Standards") require districts to adopt written policies and procedures regarding the education of children with disabilities. In July 2009, the Ohio Department of Education, Office of Exceptional Children made available the department's model special education policies and procedures. These model special education policies and procedures do not need to be adopted in its entirety as board policy. Instead, a board of education should pass a resolution directing district administrators to comply with and follow ODE's model special education policies and procedures. This policy should be amended to include a paragraph that provides that the board, by resolution, directs the administration to comply with and follow the model special education policies and procedures.

THIS IS A REQUIRED POLICY

Although the District requires all students with disabilities to be tested, each student with a disability is considered individually relative to his/her participation in the District's educational and testing programs. Alternative assessments may be required and students must make yearly gains as defined by the adequate yearly progress indicator adopted by the State Board of Education and be at a proficient level by the year 2014.

The Board, by resolution, directs the administration to comply with and follow the Ohio Department of Education, Office of Exceptional Children's model special education policies and procedures.
