Safety Program

The Board is concerned with the safety of all students, employees and members of the school community present on District property and at all District-sponsored events at other sites. The Board directs the administration to develop a safety program, which is reviewed on an annual basis.

The Superintendent/designee is the administrator responsible for the safety program of the District and develops written procedures to comply with all applicable Federal and State laws and regulations.

The practice of safety is also a part of the instructional plan of the District through educational programs. The educational program includes instruction in traffic and pedestrian safety, fire prevention, in-service training and emergency procedures appropriately geared to students at different grade levels.

All staff are encouraged to participate in the safety practices of the District by providing recommendations that ensure a safe environment for all.
